

Fire Protection Servicing Catalogue

HART ENGINEERING PRIVATE LIMITED
Protecting Assets, Safeguarding Lives

About Us

Hart Engineering was established in 1971 and has been a trusted name in fire protection servicing for over fifty years. We take the hassle out of fire safety by ensuring your systems are always in top condition, so you never have to worry about malfunctions. With our expertise in maintenance and servicing, we provide seamless, reliable protection, giving you peace of mind that your fire safety products will perform when it matters most.

Our technicians possess decades of knowledge and experience in maintenance and servicing works, guaranteeing they meet and surpass industry standards. Their steadfast dedication to their craft ensures that our maintenance efforts improve the durability and performance of fire safety systems.

Servicing of Dry Systems

At Hart Engineering, we provide expert servicing for essential fire protection systems, ensuring they function reliably when needed most. We service and maintain dry systems such as Conventional and Addressable Fire Alarm Panels, Public Address Systems, VESDA Systems, Exit and Emergency Lights, Firemen Intercoms, and PWD (Persons with Disabilities) emergency communication systems.

Servicing of Suppression Systems

Suppression systems quickly control and extinguish fires when human intervention is too slow. Regular maintenance is essential for reliable protection. Our experienced technicians specialize in servicing Gas Suppression Systems, Kitchen Fire Suppression Systems, and Engineered Smoke Control Systems, ensuring they function efficiently when needed most.
